New Paradise
MR JASON GRANT

New Paradise

is my debut encaustic tile collection with Di Lorenzo. It is inspired by my love of Bondi and Byron Bay

—

my paradise.

Colour is integral to my work as a designer and stylist, and you will see plenty of it in my work and books. I'm constantly inspired by nature, be it the lush bushland riverside, or magical ocean pools and beaches.

In this new tile range you will find subtle, muted pretty shades and neutrals, perfect for any space. Available in multiple shapes and sizes allowing the specifier to create endless colour and pattern combinations. Or you can play it safe in one shade

—

you're only limited by your imagination.
