

# COLORE

Transform your space into a chromatic masterpiece. Mix and match according to your inspiration, creating a unique composition that resonates with style

Made in Spain

Colore Fennel

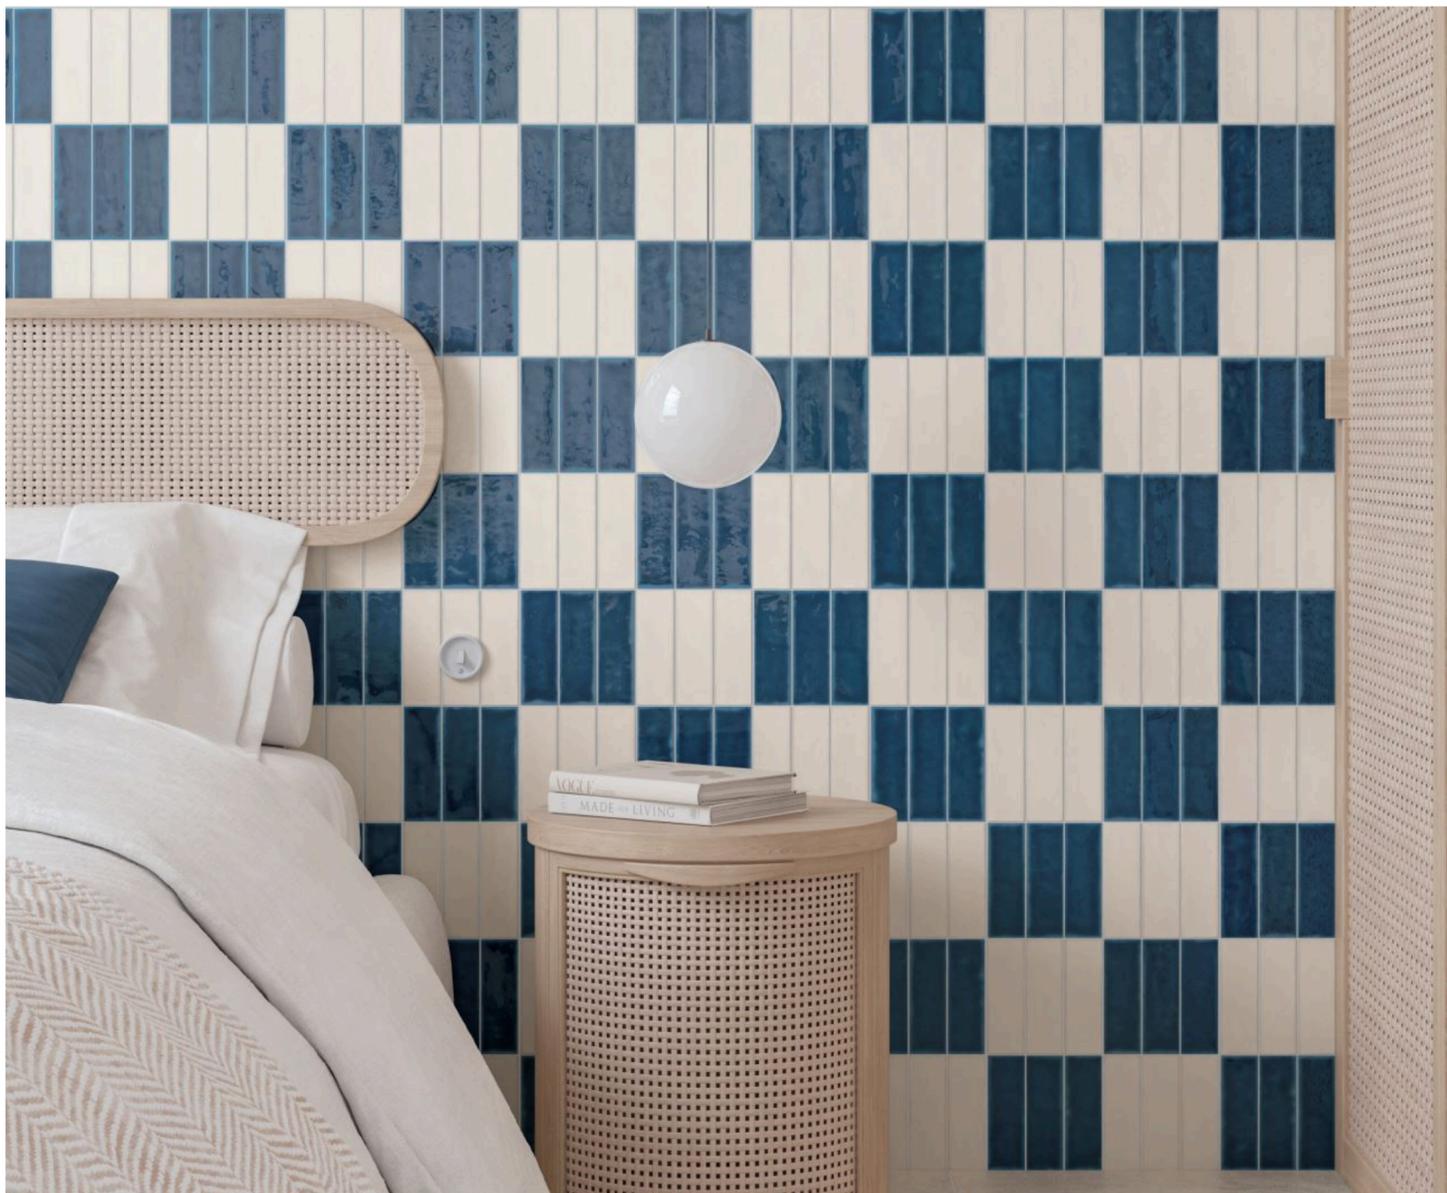

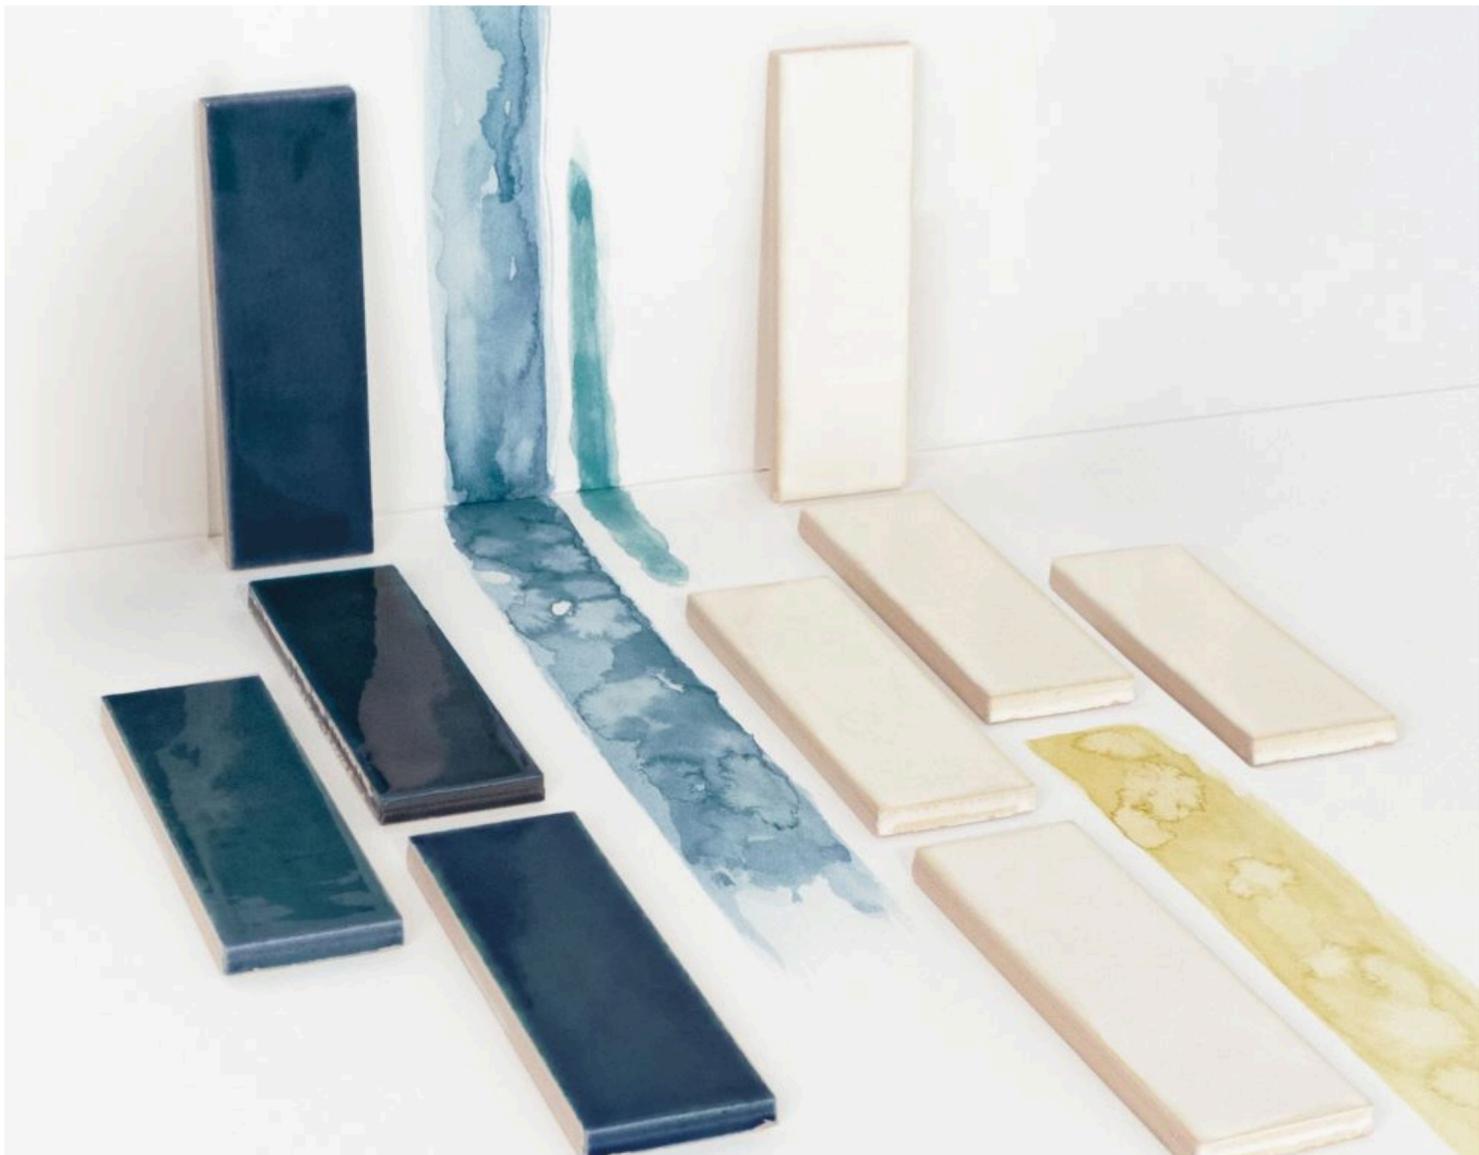

# COLORE

Colore is a slightly smaller and delicate ceramic subway tile, available in a melody of colours. The variation between each piece is subtle, yet noticeable, as are the fine details which makes this tile look not so perfect.

## RECOMMENDATIONS

### BEFORE INSTALLING THE PRODUCT

The surface where the product is being installed must be clean and level. It is recommended that the layout of the product is prepared before final installation.

### TO ENHANCE THE PRODUCT

We recommend mixing tiles from several boxes when laying the product in order to ensure adequate blending. In order to get the best results, use 1.5mm spacers between the tiles to maintain an even installation over the whole surface. The colour of the grout should be as close as possible to the colour of the product. Once the area has been grouted, and before the grout dries, remove any excess material with a damp sponge.

### MAINTENANCE

The Colore range is maintenance free and easy and practical to care for due to the high standard of technical characteristics in this ceramic product. Avoid abrasive or acidic cleaning products. It is recommended to clean with water only.
